Learning Objectives

- Review the most recent testing guidelines for non-small cell lung cancer (NSCLC), including clinically relevant biomarkers, recommended testing modalities, and implications for currently available and evolving treatments.
- Examine targeted therapies currently approved for NSCLC and appraise biomarker-driven approaches to selection and sequencing of therapy.
- Using real-world cases, consider approaches for managed care pharmacists to use when balancing costs and values of precision medicine testing and treatments.

6

Accreditation

In support of improving patient care, Creative Educational Concepts is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Medicine (ACCME):

CEC designates this live educational activity for a maximum of 1.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Pharmacy (ACPE)

This application-based activity is approved for 1.5 contact hours (.15 CEUs) of continuing pharmacy education credit JA0007101-0000-20-010-L01-P.
